Perception Is everything, INC offered our students a view of their future world (interviewing for a job) that our school could not offer them in the regular classroom setting. The knowledge gained from Mrs. Clover Henry-Gilroy's thought-provoking presentation can and will impact how our students search for a job, what he/she wears to an interview, and even what he/she posts on his/her social media pages!

Thank you PIE for what you offered our students at Suncoast Community High School. We look forward to working with you again in the future.
